LUXURY IN MOTION,  
SERENITY IN THE SKY

The Prime Choice for Indonesian Aviation

## ELEVATING EXCELLENCE IN THE SKY SINCE 1989

With over 36 years of heritage, Premier Group has built a strong reputation through internationally recognized safety standards, integrated operational facilities, and experienced aviation professionals dedicated to operational excellence.

## SETTING THE STANDARD FOR RELIABLE AND WORLD CLASS AVIATION SERVICES

Through global certifications and strategic industry affiliations, Premier demonstrates its accountability, credibility, and commitment to delivering aviation services that uphold the highest standards of safety, reliability, and professionalism.

Supported by Embraer FAA Authorized Service Center recognition, IS-BAO, IS-BAH, and BARS certifications, Premier is equipped with integrated facilities including hangar, MRO, and executive lounge services, backed by more than 180 experienced personnel to support the evolving needs of domestic and international aviation operations.

- M (Isle of Man)

# LATEST ONBOARD

## WIRA's Premium Aircraft Cleaning Experience

*premiCare*

Launched in late 2025, WIRA's aircraft cleaning service is our latest offering designed to maintain both the appearance and hygiene of every aircraft. Our main services include deep and light exterior cleaning, metal bright work polishing, as well as thorough interior cleaning and quick cabin cleaning with disinfectant to ensure a clean and safe environment. To further support aircraft upkeep, we also offer additional services such as carpet shampooing (wet wash), aircraft window cleaning, and cockpit cleaning delivered with attention to detail and high operational standards.

## WIRA Elevating Ground Handling Experience at Soekarno-Hatta

WIRA now expands its services with ground handling at Soekarno-Hatta International Airport (CGK), delivering premium FBO support for private jets and corporate flights with a focus on speed, safety, and seamless passenger experience. With international service standards, IS-BAH Stage 2 certification, and as part of the Air Elite Network, WIRA ensures reliable and efficient operations from aircraft-side pickup, passenger and baggage handling, fast-track support, to smooth boarding coordination resulting in faster ground time and a more comfortable end-to-end travel experience.

# Proven Excellence in Heavy Maintenance & Engine Care

WJA successfully completed the Heavy Maintenance LU-192 Inspection in September 2025, followed by the Removal and Inspection of a Legacy 600 Aircraft Engine in February 2026 demonstrating its proven capability in delivering precise and reliable maintenance services.

Removal & Installation Engine

LU-192 Inspection

# Bonded Warehouse

WJA has been officially granted a Bonded Warehouse facility by the Jakarta Regional Office of Customs and Excise, reinforcing our commitment to efficient and compliant aviation operations.

The approval was issued promptly following our business process presentation and symbolically handed over to our President Director, Lingga Sadoko Bijoyo reflecting a strong collaboration in supporting industry growth.

As an aircraft maintenance and repair organization established in 2013 and based in East Jakarta, this facility enables WJA to streamline the import of aviation components, reduce logistics costs, and enhance overall operational efficiency.

Beyond operational benefits, this facility also supports broader economic impact contributing to industrial development, creating job opportunities, and strengthening Indonesia's competitiveness in the global aviation sector.

From ground handling to emergency response and logistics, Premiair, WJA, WIRA and Mitra Aviasi deliver seamless aviation support across every stage of your operations, ensuring efficiency, compliance, and readiness to fly.
